WHAT IS *plus*?

PLUS or Bacterial Reduction is a 100% painless and natural procedure added to your pet's initial non-anesthetic dental or maintenance cleaning. Our Biolase certified technician uses cold laser light therapy to help reduce and eliminate the subgingival bacteria, while promoting cell growth that aids in the healing of tissue to benefit your pet's overall oral health.

Epic  *Hygiene*

Only the best for your pet!

**Ask your veterinarian
if your pet is a candidate
for Non-Anesthetic Dental
with *plus* !**
